· JavaScript	· API	· MySQL
· HTML & CSS	· WordPress	· MongoDB
· Photoshop	· React.js	· Express

Experience

BLACK BELT MOVERS | FEB 2015 - PRESENT

IT Manager | Feb 2016 – Present
. Designed and implemented the Scheduling System, Time Clock System, Hours Log for the partners, and the Project Management System using Google Apps (Sheets, Forms, Docs), JavaScript, and time-based triggers; this transformed BBM from paper based processes to fully automated cloud based systems enabling the company significant savings on Real Estate and operational costs
. Optimize and oversee the Time Clock system, Current Project Dashboard (CPD), Appointment Schedules system, payroll system and most importantly, the company's proprietary move scheduling tool
. Oversaw and helped with the design of the website currently manage the domain and hosting; Utilized HTML & CSS, WordPress, Photoshop, MailChimp, and Zoom
. Manage and report all data related to project pipeline, incoming calls, estimates, and final payroll figures; Employing Google Sheets, JavaScript, time-based triggers, basic MySQL, and Microsoft Office

Mover, Driver, Trainer | Feb 2015 – Feb 2016
. Started as a mover and was quickly promoted through the ranks until I was recruited by the corporate office to become the company's IT Manager

ASSISTANT MANAGER | LOAF 'N JUG | AUG 2014 – FEB 2015

. Responsibilities included customer service, preparing day to day reports, weekly payroll, daily paperwork, balancing cash and taking the daily deposit, ordering, pricing, and stocking inventory, handling customer incidents as well as employee requests
